

Position Description For
EMERGENCY COMMUNICATIONS SPECIALIST

Nature of Work

Employees in this position are the first contact for citizens who need immediate assistance from police, fire or emergency medical agencies. Work involves responsibility for receiving calls for assistance, prioritizing those calls, and dispatching using the appropriate procedures. The work also requires ongoing communications support for field units of the public safety agencies. These tasks are illustrative only and may include other related duties.

Examples of Work

1. Operation of a complex multi-function telephone and radio console requiring visual and auditory acuity.
2. Operation of a sophisticated computerized network including data entry information, retrieval and monitoring status changes as reflected by the computer system.
3. Correlation of multiple sources of information and organization of that information for clear and concise communication.
4. Maintenance of multiple concurrent tasks or events without confusion.
5. Acquiring necessary emergency call information from citizens who are emotional, frightened, angry, ill etc. without becoming emotionally involved or agitated with the caller.
6. Frequent opportunities to demonstrate interpersonal skills associated with teamwork, active listening, public relations and flexibility.
7. Frequent opportunities to demonstrate cognitive skills including analysis, comparison, priority setting, and re-evaluation based on new information.
